

FUNKY EROC

White Paper
V.1

ABOUT US

THE GOAL OF FUNKY FROG IS TO MAKE THE WORLD OF MEMES FUN AND HUMOROUS IT AIMS TO EMBRACE THE JOYFUL AND HUMOROUS NATURE OF INTERNET MEMES AND FOSTER A SENSE OF COMMUNITY. JOIN A VIBRANT ECOSYSTEM OF GAMERS, MEME ENTHUSIASTS LEVEL UP YOUR LAUGHTER WITH THE ULTIMATE MEMETIC ADVENTURE – TRADE, STAKE, AND HODL FOR INFINITE FUN AND CRYPTO RICHES!

STAKING

\$FRO holders can stake their tokens and earn a passive income of 180% each year.

This staking system gives prizes to people who have been involved with the Funkyfrog community for a long time.

Earning Passive APY

One of the primary benefits of staking \$FRO is the opportunity to earn passive Annual Percentage Yield (APY).

Interest Algorithms

By implementing staking algorithms, interest on \$FRO tokens kept over time can accumulate, hence establishing an incentive structure for consistent ecosystem investment.

Market Stabilization Function

Staking \$FRO naturally decreases the amount of Tokens in circulation, which reduces market volatility and enhances the Funky Frog ecosystem's economic stability.

FRO Tokenomics

The Funky Frog Token has a total supply of 1 billion tokens. The \$FRO Tokenomics framework is intricately crafted to allocate this total supply across key segments, fostering stability, growth, and engagement within the Funky Frog ecosystem. Here, we'll explore the precise distribution of the \$FRO tokens.

Presale Allocation (50%) (500,000,000 Tokens)

The presale allocation constitutes 50% of the total \$FRO supply. This allocation serves pivotal functions:

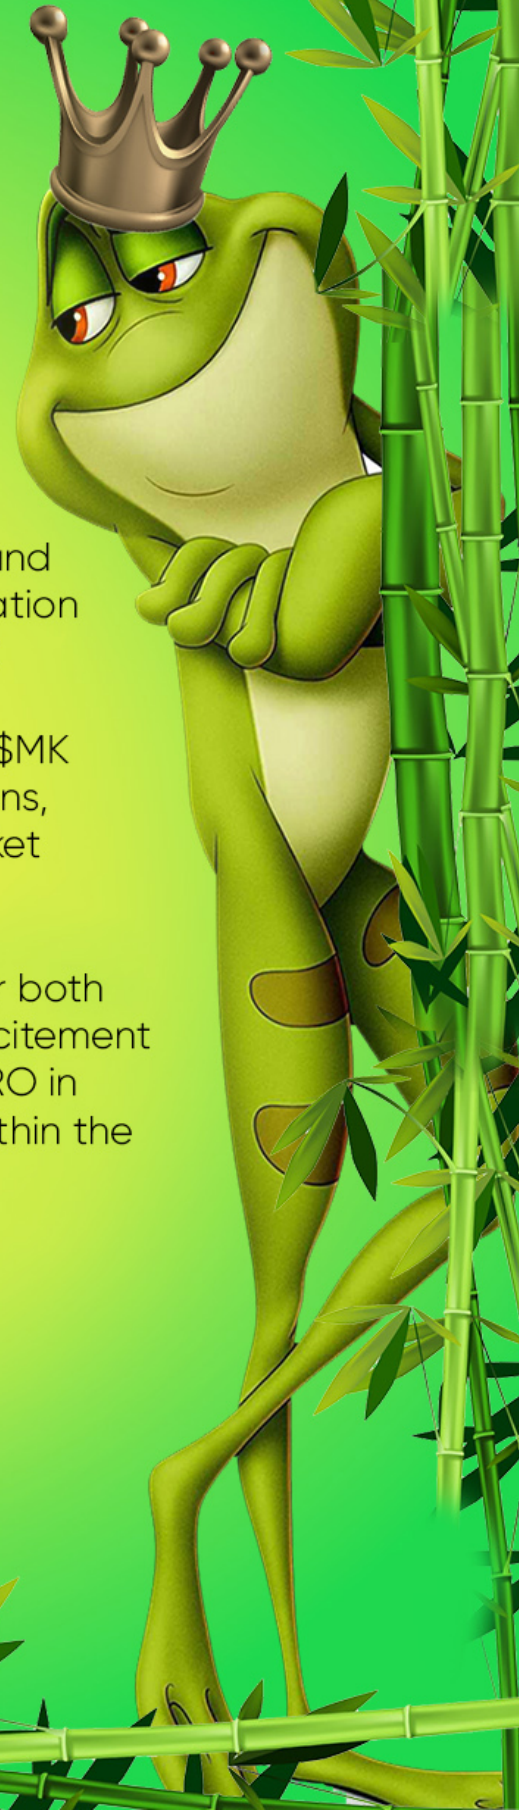

- **Initial Capital Generation:** The presale phase enables early investors to acquire \$FRO tokens at a favorable rate, thereby providing crucial capital to drive initial development and marketing endeavors.
- **Community Building:** By granting early access, the presale cultivates a community of dedicated supporters deeply invested in the project's success from its inception.
- **Market Establishment:** The presale facilitates the establishment of initial liquidity and fosters a perception of value in the market, laying the groundwork for future trading and engagement.

Staking & Battle Rewards (30%) (300,000,000 Tokens)

Designating 30% of the \$MK supply to staking and battle rewards underscores the project's dedication to incentivizing participation and engagement:

- **Staking Rewards:** Providing returns on staked \$MK incentivizes users to retain and invest their tokens, enhancing overall stability and mitigating market volatility.
- **Game Rewards:** This allotment funds prizes for both standard and high-stakes Games, injecting excitement and competition into the game. Users earn \$FRO in Games , deepening integration of the token within the Funky Frog experience.

Decentralized Exchange (DEX) Allocation (10%) (100,000,000 Tokens)

The allocation of 10% to Decentralized Exchanges (DEX) fulfills several crucial roles:

- **Liquidity Provision:** Placing a portion of tokens on DEX ensures liquidity, enabling seamless and efficient trading of \$FRO.
- **Accessibility:** This allocation enhances accessibility to \$FRO for diverse participants within the crypto sphere, fostering a broad and inclusive user base.
- **Price Stability:** Managing the token's presence on DEX allows the project to promote price stability and mitigate susceptibility to significant market manipulations.

Community Rewards (10%) (100,000,000 Tokens)

The community rewards segment, accounting for 10% of the total \$FRO supply, highlights the project's commitment to community development:

- **Engagement Incentives:** Community rewards may encompass incentives for content creation, referrals, participation in polls, or other community-driven initiatives.
- **Long-term Loyalty:** Regular rewards for active community members can cultivate long-term loyalty and sustained engagement.
- **Collaborative Growth:** Actively rewarding the community allows the Funky Frog project to harness collective intelligence, creativity, and enthusiasm for ongoing evolution and enhancement

Road Map

PHASE 1

- Launch FunkyFrog
- 50% of the \$FRO tokens will be available for presale
- Leap Frog into top trends on Twitter
- Attract 1,000+ Frog holders
- Whitepaper v.1 Release
- Project Website Release
- Smart Contract Deployment
- Legal Procedures

PHASE 2

- Smart Contract Audit
- Community Building
- Community Events Launch Giveaway
- Token Presale Launch
- Staking for \$FRO Launched

PHASE 3

- PR & Influencer Marketing
- NFTs Development
- Collaborations & Partnerships
- Core Gameplay Development
- Meta Gameplay Development
- Crypto Trackers Listing

PHASE 4

- Token Presale Completion
- Integrations with other meme coins and world domination
- DEX Listing
- CEX Listing
- Social In-Game Functions
- Game Beta Release

**PHASE 5
COMING SOON**

Token Utility & Opportunities for Token Holders

Token Buyback & Burn

Following the launch of the project and the full operation of economic flows, a portion of the proceeds will be allocated to buy back a quantity of \$FRO tokens for burning. This strategic move aims to diminish the circulating token supply, consequently enhancing potential gains for token holders. Initially, we intend to utilize 30%-50% of the economic flows (excluding operational costs) for the buyback. These percentages can be subject to adjustment through DAO voting in the future.

Engagement Rewards

Community members have numerous opportunities to acquire tokens through engagement in diverse activities. Routine community events and giveaways tailored for the Web3 audience offer chances for token holders. Furthermore, participation in in-game activities like tournaments and events may yield token rewards.

Ecosystem Currency

The \$FRO token serves as a versatile currency usable in multiple projects beyond Funky Frog. This strategy aims to establish a foundation for broadening market presence and maximizing potential gains through the integration of new games into the ecosystem.

The background of the entire page is a vibrant green gradient. It is framed by a border of bamboo stalks and leaves. In the bottom corners, two cartoon snakes are peeking out from behind bamboo stalks. They have bright green scales, orange eyes, and wide, toothy white smiles with a small purple tongue. The snake on the left is looking towards the center, while the one on the right is looking towards the viewer.

Clash Of Memes

Clash of Memes provides players with an immersive and captivating gameplay experience, blending elements of strategy, competition, and collectability. Within this vibrant digital realm, memes spring to life as players engage in battles for dominance and valuable rewards.

Here's an overview of the gameplay mechanics in Clash of Memes

Meme Coin Characters

Choose from a diverse array of meme coin characters, each representing popular meme coins in the crypto space. Whether it's Doge coin, Shiba Inu, Pepe, or more, each character comes with its own unique abilities and attributes. Strategically assemble your meme coin team and devise winning strategies to dominate the battlefield.

NFT Lands

Immerse yourself in the realm of NFT lands, distinct virtual arenas owned by players like yourself. As a landowner, you wield the authority to host tournaments and set entry fees, creating exhilarating competitions for fellow players. With the capability to offer real rewards, you'll attract top talent and nurture a competitive gaming environment.

Real Rewards with FRO

FRO (Funky Frog Coin) serves as the digital currency powering the Clash of Memes ecosystem. Obtain FRO by direct purchase and utilize it to enrich your gaming journey. FRO allows you to unlock potent meme coin characters, access exclusive features, and partake in high-stakes tournaments. With FRO, your in-game accomplishments translate into tangible rewards.

Easy Crypto Wallet Integration

Clash of Memes seamlessly integrates with leading crypto wallets, enabling you to securely manage your FRO holdings. Link your wallet to effortlessly purchase FRO and manage your in-game assets. Embrace the advantages of block chain technology, including transparency and ownership, as you navigate the game's immersive universe.

Join the Community

Clash of Memes thrives on a lively and dedicated community of meme coin enthusiasts and gamers. Connect with fellow players, join guilds, and engage in global events to showcase your prowess. Stay abreast of the latest news, strategies, and developments through in-game chat and social media integration.

Strategic Deployment

Mastering gameplay in Clash of Memes necessitate meticulous strategic planning. Players must analyze their adversaries' meme armies, evaluate strengths and weaknesses, and devise effective battle tactics. Each meme NFT boasts distinct abilities, synergies, and counters, enabling players to craft diverse and formidable combinations for battle. Additionally, players have the opportunity to acquire Arena NFT lands, allowing them to host and customize their own tournaments.

Community-driven Events and Collaborations

In an effort to cultivate a vibrant and dynamic community, Clash of Memes regularly hosts events, competitions, and collaborations. These community-centric activities are designed to foster player interaction, spur creativity, and enhance engagement. Collaborations with meme coin projects introduce exclusive NFTs and content into the game, providing players with exciting opportunities to acquire rare and highly coveted collectibles.

Conclusion

Clash of Memes revolutionizes the gaming landscape by blending the exhilaration of Clash Royale with the world of meme coins and block chain technology.

Immerse yourself in the thrill of commanding meme coin characters, owning NFT lands, and competing for real rewards with FRO. Are you prepared to embark on this groundbreaking adventure? Step into the Clash of Memes arena and unleash your strategic prowess today!
